Once hidden from the world, thousands of travelers stumbled upon the island by some ‘fortunate accident’ and began to call the Isle “Serendipity”. Known for its white-sanded beaches and turquoise sea, its abundance of rare wild-life and rich foliage, its precious gem mines, its rolling hills carpeted with the best tea in the world, and its rich history and cultural heritage, Sri Lanka is a breath-taking get-away.

Geography and Climate

The pear-shaped island consists mostly of flat-to-rolling coastal plains, with mountains rising only in the south-central part. The most significant mountains in the Island are Sri Pada and Pidurutalagala, which is also known as Mt Pedro, Sri Lanka’s highest point at 2,524 meters (8,281 ft). The Mahaweli River & other major rivers provide fresh water to the burgeoning foliage. The pattern of life in Sri Lanka depends directly on the availability of rainwater. The “wet zone” which consists mainly of the mountains and the southwestern part of the country, receive ample rainfall (an annual average of 250 centimeters). Most of the southeast, east, and northern parts of the country comprise the “dry zone”, which receives between 1200 and 1900 mm of rain annually.

Sri Lanka’s climate can be described as tropical, in other words, hot and humid. Its position between 5 and 10 north latitude endows the country with a warm climate, moderated by ocean winds and considerable moisture. The mean temperature ranges from a chilly low of 14°C in Nuwara Eliya in the Central Highlands, where even frost may occur for several days in the winter, to a high of 32°C in Trincomalee on the northeast coast. The average yearly temperature for the country as a whole ranges from 28 to 30°C.

Although Sri Lanka maintains its lovely warm and tropical climate year-round, the island does experience mild changes in rainfall. The rainy monsoon season takes place from October to January, during the rest of the year there is very little precipitation & all living creatures must conserve precious moisture. The arid northwest & southeast coasts receive the least amount of rain 600 to 1200 mm per year concentrated within the short period of the winter monsoon. May, June & July are probably the hottest months of the year and a great time to hit the beach and soak in the sun.
Ancient History and Kingdoms

Various small kingdoms that dominated different regions ruled Ancient Sri Lanka. The first major Sinhalese Kingdom was developed in the island’s northern plains, around the city of Anuradhapura. The King at the time, Devanampiya Tissa (300 – 260 B.C) was the first in the line of Sri Lanka’s kings to be converted to Buddhism by Mahinda, Son of the great Indian emperor Ashoka. There were repeated wars between the Sinhalese and Indian invaders, and for much of the first millennium AD the island was controlled by various Tamil princes. Vijayabahu re-established a Sinhalese dynasty in the 11th century. The “golden age” of the Sri Lankan kingdom was in the 12th century, when the Sinhalese King, Parakrama Bahu, united the whole island under his rule. Anuradhapura remained Sri Lanka’s royal capital until the 8th century AD, when it was replaced by Polonnaruwa.

The Portuguese were the first Europeans to visit Sri Lanka in modern times. Francisco De Almeda arrived in 1505, finding the island divided into seven warring kingdoms and unable to fend off intruders. They soon founded a fort at the Muslim port city of Colombo in 1517 and gradually extended their control over the coastal areas. In 1592 the Sinhalese moved their capital to the inland city of Kandy, a location more secure against attack from invaders and the kingdom of Kandy retained their independence during the Portuguese reign. The Portuguese saw many lowland Sinhalese convert to Christianity, but the Buddhist majority disliked Portuguese occupation and its influences and welcomed any power who might rescue them.

In 1602, when the Dutch captain Joris Spielberg landed, the king at Kandy appealed to him for help. But it was not until 1638 that the Dutch attacked in earnest, and not until 1656 that the Portuguese fort in Colombo fell. By 1660 the Dutch controlled the whole island except the kingdom of Kandy. The Dutch persecuted the Catholics but left the Buddhists, Hindus and Muslims alone.
During the Napoleonic Wars the United Kingdom, fearing that French control of the Netherlands might deliver Sri Lanka to the French, occupied the coastal areas of the island (The Ceylon) with little difficulty in 1796. In 1802 by the Treaty of Amiens, the Dutch part of the island was formally ceded to Britain and became a crown colony. In 1803 the British invaded the Kingdom of Kandy in the 1st Kandyan War, but were fiercely resisted. In 1815 Kandy was occupied after the 2nd Kandyan War, finally ending Sri Lankan independence. Following the bloody suppression of the Uva Rebellion or 3rd Kandyan War in 1817 - 1818, a treaty in 1818 preserved the Kandyan monarchy as a British dependency. The Dutch persecuted the Catholics but left the Buddhists, Hindus & Muslims alone.

The Kandyan peasantry were stripped of their lands by the Wastelands Ordinance, a modern enclosure movement and reduced to penury. The British found that the uplands of Sri Lanka were very suited to coffee, tea and rubber cultivation, and by the mid 19th century, Ceylon tea had become a staple of the British market, bringing great wealth to a small class of white tea planters. To work the estates, the planters imported large numbers of Tamil workers as indentured laborers from south India, who soon made up 10% of the island’s population.

Sri Lankan independence

Increasing grievances over the denial of civil rights, the mistreatment and abuse of natives by colonial authorities gave rise to a struggle for independence in the 1930s. The Youth Leagues opposed the “Ministers’ Memorandum,” which asked the colonial authority to increase the powers of the board of ministers without granting popular representation or civil freedoms. During World War II, the island served as an important Allied military base. A large segment of the British and American fleet were deployed on the island, as were tens of thousands of soldiers committed to the war against Japan in Southeast Asia. Following the war, popular pressure for independence intensified. On February 4, 1948 the country won its independence as the Commonwealth of Ceylon. Don Stephen Senanayake became the first Prime Minister of Sri Lanka. In 1972, the country became a republic within the Commonwealth, and the name was changed to Sri Lanka.
